Copper/Aluminium Import Monitoring System - Overview

As per the **DGFT Notification No. 61/2015–2020, Dated 31st March 2021** the Government of India has amended the import policy of Copper and Aluminum under chapter 74 and chapter 76 and made the compulsory registration under the Non-Ferrous Metals Import Monitoring System (NFMIMS) for the import.

A **Unique Registration Number (URN)** starting with 'NFS' will be provided to the importer after registration under NFMIMS.

The registration has to be done not earlier than the 60th day and not later than the 5th day before the expected date of arrival of the import consignment.

Legal action would be taken including the action under FTDR Act, 1992 for the Copper/Aluminum importers who are failing to register under **NFMIMS** in advance or found to furnish wrong data in the online system.

Objective of Copper/Aluminum Import Monitoring System (NFMIMS)

The objective of introducing the **NFMIMS** is to enable the Government of India to maintain and update constantly a database containing the advance information of Copper/Aluminum products imported in India.

The data received through the **NFMIMS** help the Government in effective policy formulations and implementations regarding imports.

As per the notification, there are 46 import products of chapter 74 of Copper Industry and 43 import products of chapter 76 of the Aluminum industry for which online registration has to be done to get registration number or NFMIMS License.

[Refer to both the image below to find the complete list of products for which registration has to be done prior to import.]

Aluminums

Fee Requirement and Validity of registration number/ NFMIMS License

The application fee of Rs. 500/- is required to get the registration number under NFMIMS.

The validity of the Registration number or **NFMIMS** license would be 75 days from the approved date.

Documents/Details required to get registration number

To get the registration number **NFMIMS** license there are various documents/data has to be kept ready in hand.

The Documents such as Digital signature certificate, active IEC copy required with the following import & item details

Import Details	Items Details
<ul style="list-style-type: none"> - Exporter Name, address, Country - Manufacturer Name, address, country - Country of Origin - Purpose of import - Port of exportation - Port of import - Expected date of Import & Export - Expected Port of entry 	<ul style="list-style-type: none"> - HSN code & Description - QCO code and description QCO Description - Item Description - Technical Detail - Type of coal - End Use and it's description - IC Number - Technical Details - Quantity & CIF Value of import - Product Category

Procedure to get the registration number/License under NFMIMS

The online application has to be done on Government's official website for import under the import monitoring system (IMS).

Under the Ministry of Mines tab select Copper to get the registration number to import chapter 74 products or select Aluminum to get the registration number to import chapter 76 products.

After selecting the Copper or Aluminum option, on the next page, a new registration option would be there.

Start filling with the required details shared above.

Multiple products can be added in one application if exporter, importer, country of origin, port of exportation is the same.

For each shipment, the license has to be filed.

Accept the terms and conditions on the declaration tab.

Submit the application after paying the registration fee.

The registration number / **NFMIMS** license would be generated immediately as the application is submitted on the portal.

The Copper/Aluminum importers only have to enter the registration number and expiry date of the registration number in the bill of entry.

Modification/Cancellation of registration number/license under NFMIMS

Modification of the license under **NFMIMS** is not permitted once the application is submitted on the portal. The draft online application details can be modified from the draft section on the website.

Same for the cancellation, the cancellation of license is not permitted once it is submitted. The draft application can be deleted from the portal.

There is no provision given for the fee refund after the cancellation.

Modification, cancellation, refund of fee post submission can be evaluated in the near future when the **NFMIMS** system would be enhanced.
